## ABOUT ME

I am a detail-oriented MCA student with a BCA background, with practical experience in Python development, OCR applications, and automated tax systems. I have a strong interest in web development and hands-on knowledge of HTML, CSS, and JavaScript, with a focus on creating responsive and user-friendly websites. I also have an understanding of AI concepts and data analytics, which I apply to develop practical and scalable solutions for retail and small business operations. I am seeking an entry-level Web Developer or Trainee role where I can apply my skills, gain industry experience, and contribute to innovative projects.

## EDUCATION

**Master of Computer Applications (MCA)** — Expected 2028
MES College of Engineering, Kuttippuram

**Bachelor of Computer Applications (BCA)** — Graduated 2026
GEMS Arts and Science College, Ramapuram | CGPA: 8.11 / 10

**Higher Secondary (12th Grade) – Kerala State Board** — 2020 – 2022
Government Higher Secondary School, Anamangad | Percentage: 91.5%

**THSLC (10th Grade) – Kerala State Board** — 2019 – 2020
Technical Higher Secondary School, Perinthalmanna | Percentage: 93.75%

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages & Core:** | Python, HTML5, CSS3, JavaScript (Basic) |
| **Frameworks & Libraries:** | OpenCV / Tesseract OCR, NumPy |
| **Databases & Tools:** | MySQL, SQLite, Git, GitHub, VS Code |
| **Domain Exposure:** | Optical Character Recognition (OCR), Business Process Automation, Financial & Data Analytics |

## PROJECTS

**Smart GST & Tax Detector** — Python, OCR, Data Analytics

- Engineered an automated digital billing system utilizing OCR to extract GST data from physical receipts, reducing manual entry errors.
- Built real-time financial tracking modules to forecast inventory needs and summarize transaction analytics for small businesses.
- Designed a self-billing client interface alongside a centralized admin control panel to streamline daily store operations.

## INTERNSHIP

**Python Intern** — August 2025 – September 2025
Regional Technologies, Calicut

- Developed modular Python scripts to support internal software applications and automated testing routines.
- Applied clean code principles and collaborative version control workflows during software development tasks.

## CERTIFICATIONS

**Career Guidance Program: "AI in Action"** — Jan 2026
GEMS Arts and Science College, Ramapuram
